

CENG-3507 MIDTERM PROJECT

Create a single webpage following these guidelines:

You have one week to complete your midterm project, utilizing the knowledge you've acquired up to this point.

The webpage should be responsive and incorporate what you've learned.

You are free to use default text for the webpage content.

Apply color styles to enhance the design of your project. Good design will earn you a bonus.

Make sure to upload your midterm code to GitHub and provide a link.

You will have a two-week time frame to present your project during the class.

Note: Cheating about your code will be punished by taking 0 from homework
